## The origin of Halloween 万圣节的由来

The legend of the origin of Halloween, there are many versions, the most common view, that is before the birth of Christ from the Medieval Western Europe countries, including Ireland, Scotland and Wales. This person called several of the Medieval Western Europe Druiitt people. Druiitt in the November 1 New Year, New Year's Eve, young people who set druid team, wearing all kinds of weird mask, carrying a carved radish good light (the late custom pumpkin light system, Medieval Western Europe first there is no pumpkin), they walk in the villages between. This was actually a kind of harvest celebration; also said to be "Halloween", the legend who died that year, the eve of Halloween spirit will visit the world, said that people should be allowed to visit the ghost that the ghost of a successful harvest and to render a hearty welcome. All fire and lights, the one to frighten away the ghost, but also for the ghost light line, to guide their return.

Central Europe in the Middle Ages, there had been destroyed by the pagan history of Christianity. However, before the ritual celebration of New Year's Eve never really eliminated, but in the form of witchcraft. This is why we are Halloween, but are also left witches broom, black cat, spells and other marks.
